ABOUT ME

Computer Engineering and Informatics graduate from the University of Patras, currently pursuing an MSc in Artificial Intelligence at the European University Cyprus (EUC). Skilled in Python, SQL, Power BI and Machine Learning, with a strong interest in Data Analysis and AI. Eager to apply analytical and technical skills to solve real-world problems.

EDUCATION AND TRAINING

01/10/2026 – CURRENT

Master of Science (MSc) in Artificial Intelligence European University Cyprus

Level in EQF EQF level 7

01/10/2019 – 01/10/2025 Patras, Greece

Integrated Master in Computer Engineering and Informatics (MEng) University of Patras

Experienced in Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn) using PyCharm and Jupyter Notebook. Skilled in data analysis and visualization with Power BI and Excel. Familiar with SQL (MySQL) and machine learning classification models. Basic knowledge of web development (HTML, CSS, PHP).

Final grade 6.95 out of 10 | **Level in EQF** EQF level 7 | **Thesis** Prediction of Sports Games Outcomes using Machine Learning

01/09/2015 – 01/06/2018 Limassol, Cyprus

Cyprus Apolytirion Apostles Peter and Paul Lyceum

- Built a solid academic foundation across core subjects
- Developed strong analytical and problem-solving skill

Final grade 18.33 out of 20 | **Level in EQF** EQF level 4

WORK EXPERIENCE

MEP Serve Limassol, Cyprus

Junior IT Support Intern

01/07/2022 – 01/10/2022

- Assisted in troubleshooting hardware and software issues for end users.
- Supported system maintenance and performed basic network configurations.

Ministry of Defence Limassol, Cyprus

Soldier, Cyprus National Guard

02/07/2018 – 10/09/2019

Served in the Cyprus Army for 14 months

PROJECTS

20/10/2025 – 20/12/2025

EuroLeague Analytics Dashboard

Developed an interactive Power BI dashboard using EuroLeague data, with Python for data processing. Visualized team and player performance through key metrics, match results, and dynamic filtering.
Technologies:
Power BI, Python, EuroLeague API, Data Visualization

10/03/2025 – 10/09/2025

Prediction of Sports Games Outcomes using Machine Learning

Developed machine learning models to predict EuroLeague basketball game outcomes using statistical data.
Technologies:
Python, SQL, Excel, Data Visualization
